E-FILING YOUR FORM 2290

The speed and reliability of electronic filing is now available to you. Filing your Form 2290 electronically through an IRS-approved software provider will save your personal resources (e.g., time & postage) and reduce preparation and processing errors.

Your Schedule 1 will be available almost immediately (once your return is accepted by the IRS) through your software developer/transmitter—no more waiting for it to come in the mail!

NOTE: Taxpayers who report 25 or more vehicles for any tax period are required by statute to electronically file their Form 2290 tax return.

To file your excise tax forms electronically you will need to select an approved software provider for the tax forms you want to file. There is a minimal fee charged to file electronically that varies by provider. Find Form 2290 provider information by accessing www.irs.gov/trucker.
